Addis Ababa, Ethiopia

PROFESSIONAL SUMMARY

Front-End Developer and Software Engineer with six years building enterprise web applications: ERP platforms, higher-education portals, public-sector websites and workflow management systems.

I currently serve as Front-End Team Lead on Haleta, a large-scale ERP platform at Qelem Meda Technologies, where I own the front-end architecture: module boundaries, component standards, review process and the conventions the rest of the team builds against. Alongside that I contribute to several commercial products in active use.

TECHNICAL SKILLS

Front-end	Vue.js 3 / Composition API • TypeScript • JavaScript (ES6+) • Tailwind CSS • PrimeVue • Pinia • Vue Router • SPA architecture • Responsive, mobile-first design • Accessibility (WCAG) • Performance optimisation • HTML5 / CSS3
Back-end	Laravel • PHP • REST APIs • Authentication & roles • API integration
Database	MySQL • PostgreSQL • Relational modelling
Tools & platforms	Git • GitHub • GitLab • Agile / Scrum • Figma • VS Code • Vite • Code review

PROFESSIONAL EXPERIENCE

Front-End Developer & Front-End Team Lead | Qelem Meda Technologies

Jun 2024 – Present

Addis Ababa, Ethiopia

Lead front-end development for enterprise-grade web applications and ERP platforms, while setting the architecture and standards the front-end team works to.

- Lead front-end development for enterprise-level web applications and ERP platforms using Vue.js, TypeScript and Tailwind CSS.
- Serve as Front-End Team Lead on Haleta ERP, owning module architecture, development standards and cross-team coordination.
- Build responsive, accessible user interfaces integrated with Laravel REST APIs.
- Collaborate with designers, back-end developers and project stakeholders across the full SDLC.
- Delivered multiple commercial products including LyuHub, GIZE, EPSU, Ethio-East, Hyper Agency, Zyoda and the Wollo University portal.

Stack: Vue.js, TypeScript, Tailwind CSS, PrimeVue, Laravel, REST APIs, Git

Founder & Front-End Developer | Moseb Technologies

2019 – May 2024

Ethiopia

Co-founded and ran Moseb Technologies as my own startup, taking projects from first client conversation through to delivery while building the front end myself.

- Founded and ran the business, handling client relationships, scoping and delivery.
- Built the front end for the Castor Oil Data Management system, covering production records and reporting.
- Developed the IEEE Student Branch website for KIOT, Wollo University.
- Developed responsive, cross-browser interfaces and integrated them with Laravel back-ends.

Stack: Vue.js, JavaScript, HTML5, CSS3, Tailwind CSS, Laravel

TEACHING EXPERIENCE

Lecturer | Wollo University — *2022 – Present*

Kombolcha Institute of Technology, Software Engineering

- Lecture undergraduate software engineering modules and serve on the department's exit exam task force.

Assistant Lecturer | Wollo University — *2019 – 2022*

Kombolcha Institute of Technology, Software Engineering

- Supported undergraduate teaching and lab sessions alongside postgraduate study.

FEATURED PROJECTS

Haleta ERP haleta.qelemmeda.et — *Live*

Role: Front-End Team Lead — Tech: Vue.js, TypeScript, Tailwind CSS, Laravel

- Lead front-end development across the platform's modules: inventory management, sales, point of sale, stock operations, reporting and audit.
- Own the single-page-application architecture: module boundaries, shared component library, coding standards and review workflow.
- Build data-heavy dashboard and table interfaces with state shared across modules.
- Coordinate with back-end developers and stakeholders to ship scalable modules.

University Scheduling System — *In development*

Role: Front-End Developer — Tech: Vue.js, TypeScript, Tailwind CSS, Pinia, Vue Router, Laravel

- Modules for master data, course offerings, scheduling and exam invigilation, behind a server-driven permission model.
- Data-heavy dashboards and reports with charting, plus Excel and PDF export.
- Bilingual English and Amharic throughout, with light and dark themes.
- Vue 3 and TypeScript with Pinia for shared state, wired to a Laravel back end.

Wollo University Research Repository — *Built, not yet deployed*

Role: Front-End Developer — Tech: Vue.js, Pinia, Laravel, OAuth2 / Passport, MySQL

- Role-based access control across admin, department head, project coordinator, advisor, student, research office and researcher.
- Multi-level approval workflow: submission, review, commenting, feedback and status tracking at every stage.
- Document management with upload, version control, format validation and controlled downloads.
- Announcements plus a dashboard reporting user statistics, document metrics and activity.

LyuHub lyuhub.com — *Live*

Role: Front-End Developer — Tech: Vue.js, Tailwind CSS, PrimeVue, Laravel

- Built responsive interfaces for every service in the product suite.
- Implemented a modern component set integrated cleanly with back-end APIs.

Ethiopian Public Service University epsu.edu.et — *Live · Volunteer*

Role: Front-End Developer · Volunteer — Tech: Vue.js, TypeScript, Tailwind CSS, Laravel

- Built mobile-first responsive interfaces across the whole site, from phone to desktop.
- Improved user experience and accessibility for a public-sector audience with mixed devices and connectivity.
- Integrated front-end modules with back-end APIs for dynamic content delivery.
- Delivered at no cost as a contribution to public higher education in Ethiopia.

ADDITIONAL PROJECTS

GIZE gize.qmt.et	An internal agile project-management tool with story-point task tracking and hierarchical epics, stories and tasks. Vue.js, Tailwind CSS, Laravel
Lacomelza Enterprise lacomelza.com	Corporate site for an Ethiopian construction, engineering and manufacturing enterprise, covering business units, projects, careers and news. Vue.js, TypeScript, Tailwind CSS, Laravel
Ethio-East Investment Group ethioeast.et	Multilingual corporate website with dynamic content management. Vue.js, Tailwind CSS, Laravel

Hyper Agency hyperagencyet.com	Corporate agency website with a modern, component-driven interface. Vue.js, Tailwind CSS, Laravel
Zyoda Parking zyodaparking.com	Parking management system covering operations, vehicle tracking and admin. Vue.js, Tailwind CSS, Laravel
Wollo University Portal wustaff.edu.et	University web portal with responsive pages and content management. Vue.js, TypeScript, Tailwind CSS, Laravel

EDUCATION

MSc in Software Engineering — CGPA 3.97

Bahir Dar Institute of Technology • 2020 – 2022

Research focus: machine-learning approaches to software size and effort estimation.

BSc in Software Engineering — CGPA 3.90

Bahir Dar University • 2014 – 2019

Best Final Year Project Award for the Ethiopian Heritage Conservation & Preservation System.

PUBLICATIONS

1. COSMIC-Based Early Software Size Estimation Using Deep Learning and Domain-Specific BERT — IEEE Access, 2025
2. COSMIC-Functional Size Classification of Agile Software Development: A Deep Learning Approach — ICT4DA, 2023
3. Predicting Software Maintenance Type, Change Impact and Maintenance Time Using ML Algorithms — ICT4DA, 2022

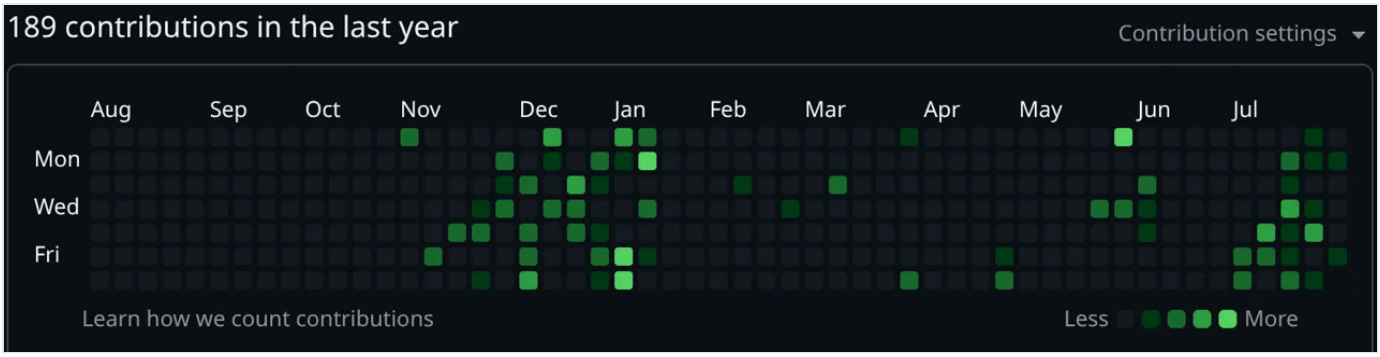

CERTIFICATIONS & RECOGNITION

- **JavaScript Practical Crash Course** — Udemy, Proper Dot Institute (Mar 2025)
- **Mastering React** — Udemy, Proper Dot Institute (Mar 2025)
- **Certificate of Appreciation** — Wollo University Exit Exam Task Force, Software Engineering (Jan 2024)
- **Certificate of Appreciation** — ICT4DA 2022, for a paper presentation on software maintenance prediction (2022)
- **Best Final Year Project Award** — Bahir Dar University (2019)

DEVELOPMENT ACTIVITY

Contribution graphs, in case the profile links cannot be opened. Most day-to-day work is in private repositories on the company GitLab.
